It is encouraging to the people of our race variety to note the fact that New York City tendered the Tenth United States Cavalry (colored) a splendid ovation on their return from the Philippine Islands, in whose tropical climate they had spent two years of hazardous campaigning. It is said that the reception given this regiment is the greatest that has been tendered any soldiers since the return of Dewey from Manilain 1898. This affair coupled with the treatment and comdet of the colored soldiers quartered near Burlington Vt. speaks volumes for those who take the optimistic side of the racial condition in this "Land of the Free and the Home of the Brave."

BEWARE OF CONSTIPATION

It is the first or primal cause of many of our diseases. St. Joseph's Liver Regulator is an ideal treatment for constipation. It acts in a natural and easy manner and by violent purging and gently loosens the bowels, thus forestalling the long train of evils which result from the clogging of the system with offensive refuse. This remedy is a wonderful stimulator of liver, stomach and bowels, inducing and maintaining healthy, natural action. Price, liquid, 50 cents a bottle; powder, 25 cents a box, five boxes \$1.00.

"Say, poor," said little Sammy Short, "Mr. Shiveron told me today that I was a second edition of you."

"That was nice of him," rejoined old man Short. "How did he come to say it?"

"I struck him for a quarter," answered Short, Jr.—*Chicago News*.

One thing the railroad commission has done for which the people of Del., DeSoto and Polk counties are grateful, was to forbid the discontinuance of the through local train running between Fort Myers and Tampa. The railroad officials were about to take the train off, the people appealed to the commission and secured an order that the train be continued, and it is still running and saving money.—*Tampa Tribune*.

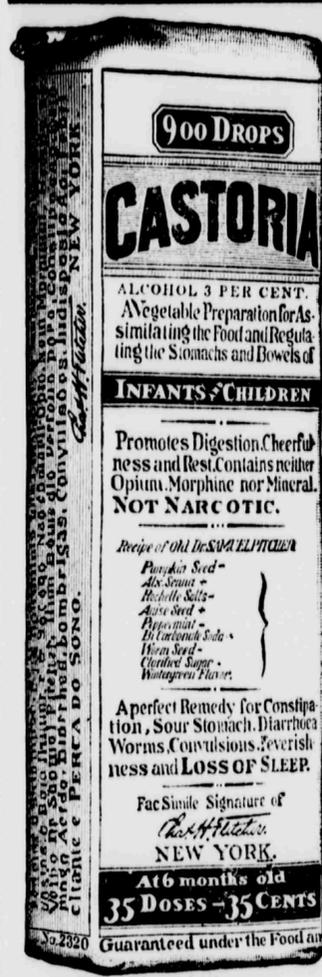

WASHINGTON, W. C. GAVE UP three dollars, was left in bed for five weeks, became paralytic from a spider's bite, caused large, deep sores to cover his legs. The doctors failed, then "Bucklen's Arnica Salve" completely cured me," writes John Washington, of Bosqueville, Tex. For extreme tooth-aches and piles its supreme. 75¢ at all druggists.

MOSQUITOES

The following, from the *Daily Journal*, appears to be a very sensible suggestion:

The question is raised, "why more mosquitoes this year than usual?"

As I look back over the years, I find that long drouths like the past year, when the ponds and water courses were dried, so all the minnows were killed, and then came excessive rains, before new minnows appear there is nothing to destroy the wigglers that form the mosquito, hence when the minnows infest the ponds and ditches again,

you may look for the departure of the mosquitoes—unless you want to force measures by kerosening the surface of the water, but that would kill any minnows now in the water.

THE SECRET OF LONG LIFE.

A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only get at all druggists.

When out in California, I learned this about Japanese dentists: A dentist from the land of cherry blossoms does not frighten his patient with an array of steel instruments. All his operations in tooth drawing are performed by the forefinger and thumb of one hand. The skill necessary to do this is acquired by long practice, but when it is obtained the operator is able to extract half a dozen teeth in about half a minute without once touching his fingers from the patient's mouth. The dentist's education commences with the pulling out of teeth which have been pressed into soft mud, and ends with the drawing of hard eggs, which have been driven into an oak plank with a mallet.—*San Francisco Herald*.

SOLVER BALKS DEATH PLOT.

It seemed to J. A. Stone, a civil war veteran, of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 120 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For severe Colds, obstinate Coughs, Hemorrhages, Asthma, and to prevent Pneumonia it's unrivaled. See and \$1.00 Trial bottle free. Guaranteed by all druggists.

shopkeeper, nodding toward a sickly cat, says Tin-Bits.

"Ye did that," replied his assistant, "an I've just been after tooth-her a pound of meat this very minute."

"Faith, an' I don't believe ye. Bring me the scales."

The poor cat was fitted into the scales. They balanced at exactly one pound.

"There!" exclaimed the assistant triumphantly. "Didn't I tell ye she'd had her pound of meat?"

"That's right," nodded the boss, scratching his head. "That's yer pound of meat, all right. But—suddenly looking up—where the devil is the cat?"
